North Carolina Employer Survey: Perceptions of Teacher Preparedness

The North Carolina Employer Survey is being conducted by the North Carolina Department of Public Instruction (NCDPI) in compliance with law (§ 115C-269.35(3)) . This survey asks school administrators (principals or assistant principals only) to provide their impressions of the preparedness of early-career teachers working in their schools. These impressions are based on instructional activities observed by school administrators and are relative to other early-career teachers.

The purpose of this survey is to gain a better understanding of how well teachers are prepared to meet the professional responsibilities of their jobs following the completion of their preparation program. These data will contribute to the state’s efforts to evaluate teacher preparation programs and meet accountability regulations and will help teacher preparation programs make evidence-based improvements.

Your participation will help NCDPI better evaluate teacher preparation programs and provide evidence to state policymakers and teacher preparation programs for informed decision-making. We hope that you take advantage of this opportunity to communicate your experience and views about the preparedness of the early-career teachers working in your school. NCDPI will provide district level response rates to your central office to identify schools that still need to complete the survey.

You will be asked to complete a survey for each teacher who completed an educator preparation program between 2023-2025 and who is teaching in 2026 for the first time since program completion. For each of these teachers, you will receive a separate email, with a unique embedded survey link. The name of the teacher will appear in the subject line of the email.

Each survey should take approximately 3 minutes to complete. If the survey is not completed in one sitting, then you can return to a partially completed survey without having to start from the beginning by using the link provided in this email. If you have any questions regarding this survey please reach out to your Human Resources Department or Charter School Director. Thank you in advance for your time!

Before we begin the survey, the teacher you are assessing will receive a companion survey about the quality of the training they received from their preparation provider. We need you to verify the email we have in our system for this beginning teacher is accurate. Our database lists the email for **`\${e://Field/teacher\_fullname}`** as **`\${e://Field/teacheremail}`**. Is this correct?

- ☐ Yes
- ☐ No

Please provide the correct email for **`\${e://teacher\_fullname}`**.
